

How to Make Hand-Stamped Gift Tags

Follow these easy instructions for making personalized tags for your holiday gifts.

Supplies Needed:

4 x 6-inch plain index cards

Scissors or paper cutter

Ruler

Rubber stamp with a design no larger than a 2 x 2-inch square*

Colored inkpad*

*You can find rubber holiday stamps and inks at retail hobby stores, specialty stamp and scrapbook stores and through online sources.

Step 1

Fold an index card in half lengthwise, making a sharp crease at the top.

Step 2

Cut the folded index card crosswise into 3 (2-inch) squares. You will get three tags from one index card. Make the number of tags you need for your gifts.

Step 3

Apply ink to rubber stamp and stamp design onto the tags. Reapply ink to stamp each time you stamp a tag.
